**Los Angeles Mission College:
Multiple Projects / Modernizations**

TDM is currently the design partner on a design-build project for the Los Angeles Mission the College of Los Angeles Community College District. The \$11.5 million project consists of nine various modernization and ADA upgrades with individual DSA application numbers. Four out of nine are already DSA approved and constructed. These four projects are currently in the DSA "Close Out" phase. The fifth project is ready for DSA back-check.

The projects include the modernization of existing facilities such as the business office and the Campus Reprographics/Reproduction Facility, improvements of the college quad with new amphitheater seating, campus wide accessibility upgrades and campus wide restroom upgrades of all restrooms in all buildings, addition of two "air locks and improvements to the "Executive Corridor" at the "Instructional Administration" building.
