One of several projects TDM has completed involving cafeterias and food service facilities, this particular design was both challenging and innovative. This 14,000 SF cafeteria/servery refurbishment and upgrade was completed in 2002. It included code required upgrades to the kitchen, a complete replacement of the JPL main cafeteria's servery area, and refurbishment of the dishwashing and dining areas as well. Strict budget limitations, high visibility, and a demanding client made this a unique effort.

Client:
JPL (Jet Propulsion Laboratories)

Location:
La Cañada Flintridge, CA

Size:
17,500 SF

Cost:
\$1,400,000

Completed:
2002
